

## High Vacuum HVU IT

HVU-IT is a compact high-vacuum system with automatic compressed air cleaning, frequency inverter and a various functions.

The system is suitable for e.g. central vacuum systems in hotels, offices, car repair shops and other places where a compact, efficient and versatile solution is needed. HVU-IT is delivered ready for installation from the factory.

### Pressure drop

HVU

The unit made of coated and galvanized steel plate, so that it is well protected against corrosion. The product is intended for indoor installation and is designed to be easy to maintain.

We can tailor solutions to the specific customer needs in order to suit the desired operating point, energy optimization and noise.

We use our standard components, so that it is easy for our customers to obtain any accessories.

### Ordering table

Art. No	Description
03-851	HVU IT 5,5kw 3x400V 50Hz/60Hz
03-852	HVU IT 7,5kw 3x400V 50Hz/60Hz
03-853	HVU IT 11kw 3x400V 50Hz/60Hz
03-854	HVU IT 15kw 3x400V 50Hz/60Hz
03-260	Filtercartridge HVU-lite 5m <sup>2</sup>

## Dimensions

## Available features

- Side Channel Blower produced in the EU ranges from 3 – 15kw – 3x400V 50hz.
- Filter cyclone with antistatic filter cartridge (7,5m<sup>2</sup>) and compressed air cleaning through a shot valve.
- Sound proof cabinet in coated and galvanized sheet metal.
- Built in compressor with pressure regulator.
- Advanced control panel with build in frequency inverter and more.
- A solution for automatic adjusting of the air volume according to the number of open outlets.
- Automatic damper at the bottom for automatic emptying of particles into a plastic bag.
- Solid plastic bag mounted with a belt for easy handling.
